

var\_pp\_functor

```
graph BT; A[address_var_pp_functor] --> B[var_pp_functor]
```

The diagram consists of two rectangular boxes. The top box is white with a black border and contains the text 'var\_pp\_functor'. The bottom box is gray with a black border and contains the text 'address\_var\_pp\_functor'. A blue arrow points vertically from the top edge of the bottom box to the bottom edge of the top box, indicating a pointer relationship where the bottom variable points to the top variable.
