This diagram illustrates the relationship between three source files in a project. At the top is a header file, `_graph.hpp`, which is included by two other files below it. The left file is `_graph.cpp` and the right file is `_step_factory.cpp`. Both source files are located in the same directory as the header file, under the path `/home/osboxes/bambu/PandA-bambu/src/frontend_analysis/`.
