

bipartite_matching
_clique_covering::add
_subpartitions

```
graph LR; A["bipartite_matching  
_clique_covering::add  
_subpartitions"] --> B["max"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains three lines of text: 'bipartite_matching', '_clique_covering::add', and '_subpartitions'. A blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'max'.
