

application_manager
::RegisterTransformation

```
graph LR; A[application_manager::RegisterTransformation] --> B[max]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'application_manager' on the top line and '::RegisterTransformation' on the bottom line. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'max'.
