

```
functional_unit::set  
_clock_period_resource  
_fraction
```

```
graph LR; A[InitializeHLS::InternalExec] --> B[functional_unit::set_clock_period_resource_fraction]
```

A diagram showing a call from the function `InitializeHLS::InternalExec` to the function `functional_unit::set_clock_period_resource_fraction`. The call is represented by a blue arrow pointing from the right box to the left box.

```
InitializeHLS::InternalExec
```
