

functional\_unit::set  
\_clock\_period

```
graph LR; A[InitializeHLS::InternalExec] --> B[functional_unit::set_clock_period];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the left is shaded gray and contains the text 'functional\_unit::set' on the top line and '\_clock\_period' on the bottom line. The box on the right is white with a black border and contains the text 'InitializeHLS::InternalExec'. A blue arrow points from the right side of the white box to the left side of the gray box.

InitializeHLS::InternalExec
