

omp\_parallel\_sections  
\_pragma::visit

```
graph LR; A[omp_parallel_sections_pragma::visit] --> B[null_node::visit]
```

A diagram showing a call from the function `omp_parallel_sections_pragma::visit` to the function `null_node::visit`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

null\_node::visit
