

HLS\_constraints::xwriteScheduling  
Constraints

```
graph LR; A[HLS_constraints::xwriteScheduling Constraints] --> B[xml_child::add_child_element]
```

A diagram showing a call from the function `HLS_constraints::xwriteScheduling Constraints` to the function `xml_child::add_child_element`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

xml\_child::add\_child  
\_element
