

weak_dominance::add_edge

```
graph LR; A[weak_dominance::calculate_weak_dominance_info] --> B[weak_dominance::add_edge];
```

A diagram showing a call from `weak_dominance::calculate_weak_dominance_info` to `weak_dominance::add_edge`. The call is represented by a blue arrow pointing from the right box to the left box. The left box is shaded gray, and the right box is white.
