This diagram illustrates the relationship between three source files in the PandA-bambu project. At the top is a header file, `_graph_computation.hpp`, which is included by two other files below it. The file on the left is `_step_factory.cpp`, and the file on the right is `_graph_computation.cpp`. All three files are located in the same directory structure: `/home/osboxes/bambu/PandA-bambu/src/frontend_analysis/`.
