_analysis/IR_analysis/call  
_expr_fix.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: `/home/osboxes/bambu/PandA-bambu/src/frontend_analysis/IR_analysis/call_expr_fix.hpp`. Below it are two white boxes representing source files. The left box is `/home/osboxes/bambu/PandA-bambu/src/frontend_analysis/frontend_flow_step_factory.cpp` and the right box is `/home/osboxes/bambu/PandA-bambu/src/frontend_analysis/IR_analysis/call_expr_fix.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.
