

tree_manipulation::
bb_add_stmts

```
graph LR; A["tree_manipulation::  
bb_add_stmts"] --> B["tree_manipulation::  
bb_add_stmt"]
```

A diagram illustrating a transformation. On the left, a gray rectangular box contains the text "tree_manipulation::" followed by "bb_add_stmts" on a new line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "tree_manipulation::" followed by "bb_add_stmt" on a new line. This represents a change from a list of statements to a single statement.
